ThinkPad SL Promotional Pricing

While supplies last

ThinkPad SL notebooks offer the perfect combination of mainstream ThinkPad performance, progressive design, and multimedia features with enhanced notebook management and security.

Contemporary, stylish design

Like every ThinkPad, the SL Series is black to give it a serious, businesslike exterior. Its glossy finish gives it an edgier, more personalized look. Its vibrant-view or anti-glare displays deliver an outstanding picture, whether viewing spreadsheets or watching videos.

Reliability you can trust

ThinkPad SL protects your investment and your valuable data with several reliability features. Its Active Protection System protects your hard drive when sudden movement is detected. Its spill-resistant keyboard protects the internal components of the ThinkPad SL by funneling spilled liquid to a drain hole in the bottom of the system.

ThinkPad X301 Ultraportable

The thinnest and lightest full-function notebooks in its class.

The ultraportable X301 models including the integrated DVD burner weigh in at a slight 3.1 lbs.

At less than 3/4 of an inch at its thinnest, X301 models set a new standard for full-function notebooks.

X301 models feature 3 USB ports plus external display, headphone/line-out and microphone/line-in. And the new X301 features a DisplayPort that combines HD video and audio into a single digital connector-interface making digital display easier, more readily available and with increased performance.

X301 models are equipped with dual speakers for enhanced stereo sound not typical in most ultraportables.

The ThinkPad X301 models feature 13.3" widescreen displays. A workspace roomy enough for spreadsheets yet perfectly scaled for optimum portability.
