# INTRODUCING ZONE LEARN

The durable, customizable headset that keeps students in the learning zone.

## NEW ZONE LEARN

### PART NUMBERS:

**On-ear 3.5mm:** 981-001372    **Over-ear 3.5mm:** 981-001389  
**On-ear USB-A:** 981-001362    **Over-ear USB-A:** 981-001378  
**On-ear USB-C:** 981-001367    **Over-ear USB-C:** 981-001383

The new **ZONE LEARN** wired headset is optimized for younger learners with the right micro-adjustable fit and optimal sound quality for students to engage in deeper, more sustained focus.

## DESIGNED FOR LEARNING

### COMFORT ALL SCHOOL-DAY LONG

Enable distraction-free learning with the lightweight, padded headband and articulating ear cups with soft leatherette earpads.

### SIZED FOR STUDENTS

Every Zone Learn headset is sized for students, but micro-adjustable slider arms and ear cups conform to each individual student, ensuring the headset stays in the optimal position.

### AUDIO TUNED FOR LEARNING

Rather than the standard music focus, Zone Learn audio drivers are tuned for voice clarity. Optimized for digital learning applications like reading, testing, ESL, and more.

### TOUGH ENOUGH FOR THE CLASSROOM

Durable, wipe tested, and drop tested to exceed military standards of drop protection. The rigid stowaway mic and flexible headset design are made to reduce breakage.

### REDUCE WASTE; UPGRADE OR REPLACE

Extend device longevity by repairing damaged headphones or adapting to new technology with replaceable ear pads and cables.

### FLEXIBILITY FOR THE WHOLE SCHOOL

Zone Learn offers plug-and-play capabilities for any device with USB-A, USB-C, or 3.5 mm AUX audio ports.

## ZONE LEARN OVERVIEW

- 1 SWAPPABLE EAR CUPS**  
Micro articulating ear cups sized for smaller ears with soft on and over ear pads
- 2 HEADBAND WITH ADJUSTABLE SIDE ARMS**  
Adjust for individualized fit on each learner along with a soft comfort layer
- 3 SWIVELING, RIGID BOOM MIC**  
Rigid boom mic with a 120° swivel for optimal audio pickup and transmission
- 4 AUDIO DRIVERS FOR LEARNING**  
Driver tuned for key learner use cases—speech comprehension and learning app use
- 5 FLEXIBLE CONNECTION OPTIONS**  
3.5 mm AUX, USB-A, and USB-C connection options make Zone Learn flexible across devices

## COMPATIBILITY

Works with devices that feature a 3.5mm AUX, USB-A, and USB-C and most operating systems and conference platforms.

## EXTENDED WARRANTY
