

newline

GOOGLE EDLA CERTIFIED OPS ANDROID COMPUTER

ENHANCED PERFORMANCE AND GOOGLE INTEGRATION

The Google EDLA Certified OPS Android Computer from Newline Interactive is designed to empower educators, businesses, and professionals with advanced computing capabilities, enabling them to unlock new levels of productivity and collaboration.

Google Enterprise Device Licensing Agreement (EDLA) certification ensures compatibility and optimal performance with Google applications and services. Leveraging the power of Google's ecosystem, this OPS computer seamlessly integrates with Google Workspace, allowing users to access their files, applications, and collaborative and administrative tools directly from their Newline display. Users can collaborate in real time, edit documents, and share ideas effortlessly with easy access to Google Docs, Sheets, Slides, and other applications.

In addition, the Google EDLA Certified OPS Android Computer is designed for hassle-free installation. With a plug-and-play setup, users can quickly connect the OPS unit to Newline's interactive displays, eliminating the need for complex configurations. Equipped with state-of-the-art hardware, including the latest processors and ample memory, the OPS delivers lightning-fast performance for multitasking and resource-intensive applications.
